

## Fond Farewell from the Board of Trustees

The Destination ImagiNation Board of Trustees thanks you for working hard this year and coming together as a global community this week. Global Finals has been an amazing conclusion to an increDIble year! We can't wait until next year!

Front, L to R: Rick Sullivan, Reggie Bunis, Frank Begun, Bob Purifico  
Middle, L to R: Bob Mauro, Andy Loftis, Bruce Urban  
Back, L to R: David Thomason, Rusty McCarty, Peggy Middendorf, Nancy Wingenbach

## You've Built It ...We've Come to See It!

It looks phenomenal! You made the Really Big Duct Tape Thing a success with your creative props, signs and inventions. Is there no end to your creativity? Don't forget to get your team's picture in front of the wall before you leave Global Finals!

## Sneak Peeks at the 2004-05 Team Challenges!

### Dizzy Derby

The Destination: Where this Challenge will take you Racing! Laps! Strategy! Your team-designed Vehicle will race against the clock to complete the greatest number of laps on our triangular track! Take a careful look at the rules since there is more than one way to gain lap points. Do you design your Vehicle for speed alone, or gain extra points with a risky "Detour?"

### Sudden SerenDIpity

The Destination: Where this Challenge will take you "Ring...Ring" ...Zap! The telephone and microwave – two inventions separated by 70 years, but with one thing in common – SerenDIpity! SerenDIpity, or discovery by chance, is an important ingredient in many important inventions. What brilliant invention will your team be seeking to create when serendipity strikes? Is your invention celebrated as a stroke of genius, or misunderstood? This is your opportunity to present your Story of SerenDIpity. Good Luck!

### Live! It's RaDIo DI!

The Destination: Where this Challenge will take you Before we had television, imaginations around the world came alive every night. Families sat beside the radio, listening to the news of the day. The radio also brought all sorts of entertainment to life without pictures. Music was popular, and so were plays – funny plays, serious plays and mysteries. Your Challenge is to create a story that can be told without pictures – an original RaDIo show being performed live for a RaDIo audience. Your Presentation will include a commercial that makes an outrageous claim for a product, and of course a "Breaking News Bulletin."

### IMPROVing Along

The Destination: Where this Challenge will take you Gear up on everything there is to know about how we get around, because at performance time, this improvisational Challenge will include one of the 12 modes of transportation your team has selected to study. You'll also create your own IMPROV mobile and create a skit on the spot that includes an Improv Travel Game and show what happens Along the Way. Don't forget: Your ticket only allows 30 minutes for you to plan your entire trip, and you'll need to remember to pack your Invisible Prop! ALL ABROAD!

### DIsigning Bridges

The Destination: Where this Challenge will take you What do we do when a river, busy highway, or deep ravine stands between us and our destination? We build a bridge! Your Challenge is to build a bridge out of wood, glue, and fishing line that holds weight. Will your bridge be long? Will it be strong? You decide! Explore the many bridges of the world to inspire your design. Then test your bridge while presenting a story about a bridge between two nations' cultures.

### Rising Stars!™ ...More to the Story!

The Destination: What is Our Challenge? What happens to the characters in a story after the story ends? What did the pirates do after they found the treasure? What happened after the princess married the prince? Your team will pick any story you like. You will make up a Play about the story. Your Play will tell what happened after the story ended. Your team will tell...More To The Story!
